

# Biosecurity alert: Praxelis

**Praxelis (*Praxelis clematidea*) is a declared pest plant in WA.  
Help us keep the weed from establishing in the Kimberley.**

## What to look for

- Up to one metre tall, covered with coarse segmented hairs
- sticky leaves with a pungent aroma when crushed
- purpleish blue or lilac flowers arranged in flower heads in flat topped clusters
- seed is black, 2-3mm long, crowned with bristles 4mm long
- often found near a water source (i.e. sprinklers)
- shallow root system (easy to pull out)
- very fast growing.
